**QUICK START
OPERATION GUIDE**

1. Unpack and inspect the GS76R package. Your GS76R was carefully packed at the factory in a protective carton. Be sure to inspect the unit and package for any visible damage that may have occurred during shipping. If any physical damage is noticed, contact the carrier immediately to make a damage claim. We suggest saving the shipping carton and packaging material for safely transporting the unit in the future.

2. For warranty registration please visit the rolls web site at www.rolls.com.

DESCRIPTION

Each GS76R unit includes the following components:

- GS76R black hard case.
- 1 GS76R contestant main unit.
- 8 contestant buttons.
- 8 Connection phone cords.
- 1 Rolls PS27 power adaptor.

OPERATION

Connect the GS76R Main unit to the provided Rolls PS27 adaptor. Upon power up the GS76R will beep and the eight indicator lights will light. After about three seconds the ready light will come on and the unit is ready for use.

The Contestant buttons are identical and have no order (1-8) they can be hooked to the main unit in any configuration using the supplied grey phone cords.

The MANUAL - AUTO switch is located on the side of the GS76R main unit. The silk-screening will indicate which selection is in use.

AUTO MODE:

During operation, when a remote button is pressed. All other remotes are locked out and the corresponding led on the controller will light. Approximately three seconds after the contestant has rung-in, the indicator LED will go out and the Ready LED will light again indicating the system is ready for another use.

MANUAL MODE:

Manual mode operates the same as AUTO mode with the exception that the RESET button must be pressed after a contestant has rung in. The Manual mode will stay locked on the last contestant until the RESET button has been pressed. After the RESET button has been pressed the unit is ready for another use.

JOIN:

This is used to join GS76R units together for more than eight contestants. THE JOIN CABLE IS DIFFERENT THAN THE CABLES SUPPLIED AND MUST BE SPECIAL ORDERED FROM THE ROLLS FACTORY! The join function can link many GS76's together by connecting them in parallel with cords as described above, and a parallel phone jack connector that can be purchased from any electronics or home store.
